Our Story

We met at UMass Lowell's college orientation in 2010. We instantly hit it off, became friends, kissed, and then didn't see each other again until 4 years later. We reconnected (because fate has a weird way of circling back on you) and had an epic first date. Many months later, we officially became boyfriend & girlfriend in 2015.

Special thanks

Thank you to our family and friends for helping us celebrate on this special day. We would not be the people we are today without you. You have played an important role in our lives and we are forever grateful to be surrounded by each and every one of you today.
